IDEA COMPETITION – Higher education

An important element of Danish Entrepreneurship Award is the Idea Competition. It runs parallel for the three levels of the Danish educational system; higher education being one of them.

On these pages you can read about the Idea Competition and the rules and sign-up procedures.

How does the Idea Competition work?

In short – as a participant in the Idea Competition you have to:

- Type in a written presentation (max. 4800 characters) – **deadline Tuesday October 23, 2018, at 12.00**
- Pitch your idea for a judge twice - each time 4 minutes pitch, 4 minutes feedback
- Visit the Counseling Zone (Rådgivningszonen) and get advise

Written presentation

To be part of the Idea Competition you have to type in a written presentation of your idea in advance of Danish Entrepreneurship Award. The written presentation has a limit of max. 4800 characters, spaces included, and it has to be typed into an online form via "Min side". It is NOT possible to upload a file like a pdf or otherwise. In the presentation you have to use the template and describe present your idea, according to the criteria found [here](#).

We only accept written presentations typed into the online form, so you cannot submit it by email or any other way. The written presentation has to be typed in no later than **Tuesday October 23, 2018, at 12.00**.

Pitch

At Danish Entrepreneurship Award has to pitch their idea for a judge twice. The pitch lasts 4 minutes. After the pitch the team receives four minutes of feedback from the judge.

When all teams have been through the 1st pitch round, the 2nd pitch round starts – same procedure as in 1st round.

FONDEN FOR ENTREPRENØRSKAB
MEDLEM AF JA WORLDWIDE

It is allowed to use "props" for the pitch, e.g. computer, Power Point, video, sketches, prototypes and so on, but you have to bring all of the equipment yourself. There is no access to power, projector and/or otherwise at the pitch rounds.

When all teams have finished their pitches, the winning team from each of the four categories will be announced and qualified for the final. The four category winners will be announced at 13.30 and the final starts at 14.00.

You will find the criteria for the pitch [here](#).

The final

In the final, the four category winners compete to become the overall winner of the Idea Competition for further education. Each team will have four minutes to pitch for a panel of three-four judges. The final pitch is on a stage and after the four minutes, the judges can ask additional questions.

In the final, you can also use "props" like computer, Power Point, video, sketches, prototypes and so on, but this time you will have access to power and a projector. It is a good idea to prepare a visual presentation (e.g. PowerPoint or Prezi) to use in case you qualify for the final.

After the four final pitches, the judges will deliberate and the overall winner for the further education will be announced during the Award show.

Feedback from the judges and visit to the Counselling zone

We recommend to appoint someone in the team to write down all the great advice, tips and tricks from the feedback you get during the day, both from the judges and in the Counselling zone. This way you will not have forgotten it when you get home and continue the development of your idea.

Prizes

The overall winner receives a prize of DKK 10.000,-

Judging in the Idea Competition

Judges

The judges are representatives from businesses and organisations in Denmark. They judge both the written presentation, the pitches and the final.

Judging of the pitches and the finale

The four category winners are found by adding the scores from the written presentation (judged prior to the Award) and the two pitches. The team with the highest score in each category qualifies for the final. The category winners will be announced at 13.30 and the final starts at 14.00.

The winner is the team with the highest score in the final. This means that the score from the written presentation and the pitches does NOT count in the final.

Judging criteria

There are a set of judging criteria for both the written presentation and the pitches. The final is evaluated by the same criteria as the pitches. See all the judging criteria [here](#).

Information about score and ranking

After Danish entrepreneurship Award all participating teams will receive an email with information about their score and ranking in the competition.

Rules for participation

A team is max. 6 students but you can also participate on your own. All members on the team must sign up and you can only enter one idea per team.

At sign-up you choose one member to be the contact for the team. He or she will receive emails with information about the competition.

You cannot participate if:

- You have registered a CVR-number prior to the competition.
- You have made money on your idea (sponsorships from companies or other partners are allowed)
- Your idea already exists - copying is not allowed. Ideas are often based on existing inventions but it has to be a further development of the existing and it has to create a new value.

Before and during the competition we will be doing random checks to ensure participants are following the rules.

Categories

At sign-up you enter your idea in one of four categories:

- **GreenTech**
Better use of resources, recycling and green solutions
- **Social Entrepreneurship**
Creation of social value for individual or society, nationally or globally
- **LifeTech**
Developments within welfare, health care or learning
- **Serviceinnovation**
Development of experience and user design
